

# HOW TO USE THE UNIVERSAL SPONGE™ SORBENTS

**FOR HAZARDOUS FLUIDS:** Hazardous chemicals and other dangerous liquids are instantly contained and absorbed without having to worry about the type of fluid spilled, even hydrofluoric acid.

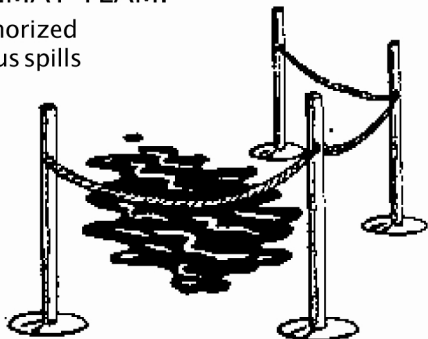

**TO ASSURE MAXIMUM SAFETY AND EFFECTIVENESS, FOLLOW THESE EASY STEPS:**

## Sorbent Products

*Note: For best results, fluff up the sorbent filler material which may have compressed during shipment.*

### 1. CORDON OFF SPILL AREA. CALL FIRE DEPT. OR HAZMAT TEAM.

Clear away all unauthorized personnel. Hazardous spills should be reported immediately to the proper authorities. Only trained and properly equipped HazMat personnel should attempt spill cleanup.

### 2. WEAR PROTECTIVE CLOTHING.

Always use self-contained breathing apparatus. Treat every spill as most hazardous and prepare for the worst case scenario.

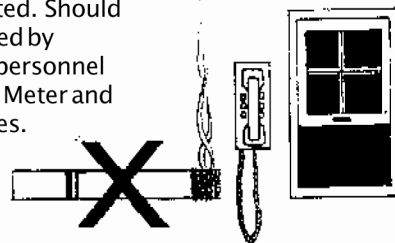

### 3. DETERMINE THE NATURE OF THE SPILLED MATERIAL.

Note: If the spilled material cannot be immediately identified assume that it is toxic and hazardous. Exercise **EXTREME CAUTION** during clean up.

### 4. ELIMINATE ANY POSSIBLE SOURCE OF FIRE, i.e., SPARKS, OPEN FLAMES, ETC.

Make sure the area is properly ventilated. Should only be performed by trained HazMat personnel using Explosion Meter and Detection Devices.

### 5. SELECT APPROPRIATE Universal SPONGE PRODUCTS AND PUT IN PLACE AROUND SPILL

- Universal SNAKE™ to contain and absorb small spills.
- Universal BOOM™ to contain and absorb larger spills.
- Universal SUCKER™ to absorb leaks and mop up contained spills.
- Also available: Universal MATS, ROLLS and PULP.

### 6. FLUIDS WILL REMAIN IN THEIR ORIGINAL STATE; THEY WILL NOT BECOME LESS HAZARDOUS AFTER ABSORPTION. USE EXTREME CAUTION.

Dispose of saturated Universal SPONGE product in compliance with state, local and/or federal regulations
